Fine by me. This issue has been around for decades, and isn't going away soon. I have also pitched the idea to my management and Cheryl about a webinar on enforceability for the MM2A implementation. Thanks.

I love your topic ideas and that's what we are here for -the tough issues, right? Let me see how this agenda evolves – I may need to save your topic. For this conference call, you may have noticed that I cc'd Juan and Rob Tomiak. Rob is planning a 15 min discussion on the role of OP's permitting division. I am thinking that we may have several questions and I may not have too much room in this month's agenda?

Melanie- How about examples of permit terms intended to ensure synthetic minor permit status that AED doesn't think are enforceable as a practical matter.

OK- a bit controversial right now- so maybe only if you need agenda items?
